PROFILE

Second-year (Q4) student of the B.A. in Information Technology Management at UADE (in-person evening classes, Mon–Fri), GPA 8.2/10. I build end-to-end projects combining Python, REST APIs, PostgreSQL and LLM integrations — from data pipelines to deployed dashboards — and I use AI tools to prototype, review and test, always validating the final result myself. I work part-time in high-traffic customer-facing operations (Grido), handling real-time issue resolution, billing and inventory control. Seeking the 2027 Internship Program (Technology track, part-time) to learn in a global technology environment.

EDUCATION

B.A. in Information Technology Management — UADE | Mar 2025 – Expected Dec 2028

- Fourth semester (Q4) in progress, good academic standing. GPA: 8.2/10.
- 15 of 40 courses completed.

High School Diploma in Economics & Administration — Colegio Eccleston | Graduated Dec 20, 2024

- GPA: 9.11/10 (official transcript).

EXPERIENCE

Customer Service Representative — Grido (franchise) | Oct 2023 – Present

- Customer-facing service at a high-traffic point of sale: handling inquiries, resolving issues in real time, billing.
- Cash reconciliation, inventory control and shift coverage.
- Built my own Excel trackers for sales and inventory follow-up.
- Current load: ~10 h/week (part-time).

PROJECTS

World Cup 2026 Predictor — Statistical sports prediction engine | 2026

Python · NumPy/Pandas · external APIs (Polymarket and other odds sources) · MIT

- Match prediction engine for the 2026 World Cup: weighted consensus of 10 sources, 7×7 Poisson matrix, 10,000 Monte Carlo simulations per group and post-match Elo updates.
- Automated data pipeline; dashboard deployed on Vercel. https://prode-mundial-2026-ten-omega.vercel.app · https://github.com/nachopalmeri/prode-mundial-2026

JobBot — AI-assisted job search (Telegram bot + dashboard) | 2026

Python · Telegram Bot API · FastAPI · Next.js · PostgreSQL · LLMs (Groq)

- Telegram bot that aggregates job postings from multiple sources, filters results and sends scheduled alerts with LLM-generated summaries. I actively used it for my own job search.
- Web dashboard with auth (JWT, httpOnly cookies) and billing layer in test (sandbox) mode.
- Developed with AI assistance and manually reviewed. https://github.com/nachopalmeri/jobbot

FranquiYA — Full-stack dashboard prototype for franchise operations | 2025 – 2026

Next.js · React · TypeScript · FastAPI · SQLAlchemy · SQLite

- Prototype dashboard (57 commits) for internal operations: inventory, invoices, employees, shifts, audits and tasks.
- REST API backend, Pydantic-validated models and testing (Jest/pytest). Demo: https://franqui-ya.vercel.app

Agents System — Personal AI-assisted development workflow | 2026

Python · Markdown · Git · LLM tooling

- System of agents, skills and workflows (73 commits) for AI-assisted development: planning, implementation, review, testing and documentation.
- Responsible AI use: I review, test and adapt everything generated. https://github.com/nachopalmeri/agents-system

TECHNICAL SKILLS

- Languages & frameworks: Python, JavaScript, TypeScript, FastAPI, Next.js, React
- Databases: SQL, PostgreSQL, SQLite
- Infrastructure & tools: Linux (RHEL/Ubuntu, WSL2), Git/GitHub, GitHub Actions, Vercel, Railway, Bash
- Applied AI: LLM integration (Claude, Groq, Gemini), prompt engineering, agent workflows, process automation, AI-assisted development with review and testing
- Business & management: Process modeling, customer service, advanced Excel, working under pressure, agile methodologies

CERTIFICATIONS

- Red Hat System Administration I (RH124) — Red Hat Academy, 2025. Completed Linux/RHEL administration course.
- Claude Code in Action — Anthropic, 2026.
- CCNA 1: Introduction to Networks (Cisco track) — UADE, in progress, expected completion Dec 2026.
- English: B1+/B2 self-assessed, not yet certified (optional to verify with free EF SET).

LANGUAGES

- Spanish: native
- English: B1+/B2 — fluent technical reading, intermediate written and oral communication. No formal certification yet.

AVAILABILITY

- Part-time: 20-24 h/week. Morning or afternoon shift, Mon–Fri.
- Hybrid or remote; on-site in Buenos Aires/GBA. Immediate start (available from Jan 2027).
