PROFILE

Second-year (Q4) B.A. Information Technology Management student at UADE (GPA 8.2/10, 15 of 40 courses completed, expected graduation Dec 2028). Learning IT fundamentals through university coursework and self-study, and building small projects to apply them. I use AI tools (agents, workflows, Claude/Groq/Gemini) daily to prototype and document, always reviewing and testing the result myself. Interested in data, dashboards and how AI connects to real operations. Seeking a part-time Web Project Manager internship where I can support planning, coordination and delivery while learning from the team.

EDUCATION

B.A. in Information Technology Management — UADE | Mar 2025 – Dec 2028 (expected)

- In progress — Q4, good standing. GPA: 8.2/10.
- 15 of 40 courses completed.

High School Diploma in Economics & Administration — Colegio Eccleston | Graduated Dec 20, 2024

- GPA: 9.11/10.

EXPERIENCE

Customer Service Representative — Grido (franchise) | Oct 2023 – Present

- Customer-facing service at high-traffic store: inquiries, issue resolution and billing.
- Cash reconciliation, inventory control and shift coordination.
- Built simple Excel trackers for sales and inventory as self-taught practice.

PROJECTS

Self-built projects developed with AI assistance (agents, workflows, Claude/Groq/Gemini) and manual validation. Built to learn by doing, not production systems.

Darter — personal operations and data terminal | 2026

TypeScript · PostgreSQL · REST APIs · AI-assisted

- Personal dashboard for budget, holdings and process tracking; imports Excel statements.
- Learning hexagonal architecture and data pipelines; tasks broken into small deliverables.
- Demo (read-only): https://darter-vert.vercel.app — Repo: https://github.com/nachopalmeri/darter (private)

FranquiYA — franchise operations dashboard prototype | 2025 – 2026

Next.js · TypeScript · FastAPI · SQL — learning

- Prototype for inventory, invoices, employees and audits (57 commits).
- REST API with validation and basic testing (Pydantic + Jest/pytest).
- Repo: https://github.com/nachopalmeri/FranquiYA — Demo: https://franqui-ya.vercel.app

JobBot — AI-assisted job search automation | 2026

Python · FastAPI · PostgreSQL — learning

- Telegram bot that aggregates listings and drafts LLM summaries; simple web dashboard.
- Repo: https://github.com/nachopalmeri/jobbot

Prode Mundial 2026 — sports statistics engine | 2026

Python · Pandas — learning

- Collects sources, builds weighted consensus and runs Monte Carlo simulations for learning purposes.
- Repo: https://github.com/nachopalmeri/prode-mundial-2026

SKILLS

- Learning (university + self-taught): Python (basics, coursework), SQL basics, JavaScript/TypeScript basics, FastAPI/Next.js introductory

- Tools in practice: Git/GitHub, Linux basics (RHEL/Ubuntu via coursework), Vercel, Bash basics
- Applied AI (learning): using LLMs (Claude, Groq, Gemini), prompt engineering, agent workflows, process automation — with manual review
- Working style: process organization, customer service, documentation, agile basics

CERTIFICATIONS

- Red Hat System Administration I (RH124) — Red Hat Academy, 2025.
- Claude Code in Action — Anthropic, 2026.
- CCNA 1: Introduction to Networks — Cisco Networking Academy / UADE, 2026. Completed. https://www.credly.com/users/ignacio-palmeri.a13864b6

LANGUAGES

- Spanish: Native
- English: B1 (intermediate), self-assessed, not formally certified. I read technical documentation in English.

AVAILABILITY

- Part-time 20 h/week, Mon–Fri. Hybrid/remote; on-site CABA/GBA. Immediate start.
